

# M2599RX

## About this product:

Bushier, early season soybean to close the canopy  
 Good Tolerance to white Mold and SDS  
 Great field tolerance to Phytophthora Root Rot  
 Great looking soybean overall!

## Plant Specifics:

10 = Excellent    1 = Poor    R = Resistant

Plant Specifics	Score	1	2	3	4	5	6	7	8	9	10
Emergence	8										
Standability	7										
Stress Tolerance	N/A										
Phytophthora Root Rot	6										
Iron Deficiency Chlorosis	5										
Sudden Death Syndrome	4										
White Mold	4										
Frogeye	N/A										
Stem Canker	R										
Brown Stem Rot	MR										

Soybean Cyst Nematode Marker: R  
 Phytophthora Gene: Rps1c

## Herbicide Tolerance

**Dicamba Tolerance**                    YES ✓  
**2,4-D Choline Tolerance**            NO ⊗  
**Glufosinate Tolerance**                NO ⊗  
**Glyphosate Tolerance**                YES ✓

## Plant Characteristics:

Purple Flower  
 Light Brown Pubescence  
 Tan Pods  
 Black Hilum  
 2.5 Relative Maturity  
 Medium Bushy
