

# M2866RX

## About this product:

One of the best defensive products for SDS

Does best on prairie soils but height allows for marginal soil types as well

Great stand late into harvest makes for excellent cutting

Tried and true Monier Soybean product!

## Plant Specifics:

10 = Excellent

1 = Poor

R = Resistant

Plant Specifics	Score	10	9	8	7	6	5	4	3	2	1	R
Emergence	7.2											
Standability	7											
Stress Tolerance	N/A											
Phytophthora Root Rot	7											
Iron Deficiency Chlorosis	7.3											
Sudden Death Syndrome	7.2											
White Mold	N/A											
Frogeye	N/A											
Stem Canker	N/A											
Brown Stem Rot	8											

Soybean Cyst Nematode Marker: R

Phytophthora Gene: Rps1c3a

## Herbicide Tolerance

**Dicamba Tolerance** YES ✓

**2,4-D Choline Tolerance** NO ✗

**Glufosinate Tolerance** NO ✗

**Glyphosate Tolerance** YES ✓

## Plant Characteristics:

Purple Flower

Gray Pubescence

Brown Pods

Imperfect Black Hilum

2.8 Relative Maturity

Medium Tall
